

The University City/USP is located between the Cidade Universitária and Jaguaré bridges at Marginal Pinheiros Avenue, East Zone of the city. It can be accessed through the Cidade Universitária bridge (Gate 1) or by the Politécnica Avenue (Gate 2).

The public transportation lines of São Paulo (subway, buses and metropolitan trains) are integrated into Google Maps (<http://maps.google.com.br/>).

To identify the better way to go using the public transportation, we recommend using the Google Maps tools, informing the FEA's address (908 Professor Luciano Gualberto Avenue, Butantã). In the option "Public Transportation" is possible to visualize the available routes that may combine subway, trains and buses.

There are bus lines that go directly from the Butantã subway station (Line 4 – Yellow) to the University City, with stops next to FEA/USP (next to the Banks).

USP Conference in Accounting and Control Team.
